Profile:

Passionate **Full-Stack Developer** skilled in back-end and front-end .Also interested in **AI development** with FastAPI, Machine Learning, and Deep Learning.Looking to grow my skills and gain real-world experience through innovative, impactful projects.

Technical skills:

- **Programming Languages:** Python, JavaScript, PHP.
- **Frameworks & Technologies:** Next.js, React, Tailwind CSS | FastAPI, Express.js, Laravel.
- **Libraries & Data Science:** NumPy, Pandas, Scikit-learn, TensorFlow.
- **AI / Generative AI:** LLMs (Hugging Face), NLP, RAG, Chatbot Development.
- **Databases:** MySQL, PostgreSQL, MongoDB.
- **Tools & Platforms:** Git, GitHub, Gitflow, Postman, Jupyter Notebook, Google Colab, Jira, Trello.
- **DevOps & CI/CD:** Docker, GitHub Actions.
- **Testing & Quality Assurance:** pytest, Fixtures, Mocking.
- **MLOps & Data Engineering:** Apache Airflow, MLflow.
- **Monitoring & Observability:** Prometheus, Grafana, OpenTelemetry.
- **Methodologies:** Agile ,Kanban.

Experiences :

- **E-commerce plateforme chez DISIS MAROC:Freelance** *April2026 – May2026*
Redesigned an e-commerce platform for electronic and IT equipment, adding features and improving UX and performance.
- **International Student Guidance Platform at ZHacademy: Freelance** *March2026 – April2026*
Contributed as a front-end developer to Ventory, a high-performance SaaS platform, by developing responsive and efficient user interfaces using Next.js and Tailwind CSS.
- **Cash-on-Delivery Sales Management Platform at Technopeck:Intern** *July 2025 – September 2025*
Contributed as a front-end developer to a Cash-on-Delivery Sales Management Platform by developing a responsive and secure landing page in Laravel Blade, enhancing usability and improving user engagement.
- **Arabic and Quran Teaching Platform at DeveloppeurlInformatique.ma: Intern** *March 2025 – May 2025*
Developed modern, responsive user interfaces as a front-end developer using React and Tailwind CSS, enhancing user experience.

Projects:

- **Elan:** Fullstack application for managing household supplies with integration of supervised and unsupervised machine learning. (Nextjs, FastAPI, Docker, Postgres)
- **Hyber-Analyser:** Fullstack application designed to automate the analysis of monitoring articles by orchestrating two complementary AI services (FastAPI, Next.js, PostgreSQL, Gemini & Hugging Face)
- **RetentionAI:** Predicts employee turnover risk and generates personalized retention plans using AI (Next.js, FastAPI, Hugging Face, PostgreSQL, Docker)
- **Facial Emotion Detection:** Detects faces, predicts emotions, and records the predictions (CNN with TensorFlow/Keras, OpenCV + FastAPI + PostgreSQL)

Education:

- **Specialized Institute of Applied Technology at Ait Melloul:** *Sep 2023 - June 2025*
Digital Development Diploma: Full-Stack Web Option

Certifications:

- **Certification in Artificial Intelligence :Simplon Maghreb** *Sep 2025 - March 2026*
- **Python Essentiel 1 :Cisco** *May 2024*

Soft skills:

- Organization, Structured Thinking, Collaboration.

Languages:

- **Arabe:** Native speaker

English: Technical

French: Fluent
